

Beyonce needs a new home. With you?

Beautiful Beyonce is dreaming of a new, loving, forever home. She's a Bull Terrier/American Staffordshire mix, vaccinated, spayed female, about 18 months old, and she's house-trained. Beyonce is friendly and adores being with people. She walks nicely on a leash and would love a daily walk or jogging with you. Although Beyonce is fine around children, we recommend that she live in an all-adult home, and that she be the only pet in the home. She is very playful, enjoys her doggie toys, and will play fetch. An added plus is that she is receiving professional dog training. Her ideal family would be one with experienced, thoughtful dog owners in a stable household, who love dogs and treat them as members of the family. Beyonce's potential new family will also receive three free sessions with her professional dog trainer. If you'd like to know more about Beyonce, talk about making her your best friend forever, and arrange to meet her, call Pet Project Foundation's point of contact for Beyonce at 949-496-4003.
